**NOTICE OF YEAR-END REVIEW PROCEDURES**

To: ALL ADMITTED INSURERS AND INTERESTED PERSONS

Date: August 7, 2009

**SUBJECT: CORPORATE APPLICATIONS AND SIMILAR FILINGS
REQUESTING DEPARTMENT APPROVAL BY YEAR-END 2009**

Applicants seeking expedited review of corporate applications for completion by year-end 2009 must submit the applications no later than September 18, 2009, or, in the case of a holding company application, no later than October 30, 2009. Only perfected applications will be considered eligible for expedited review. A perfected application is one that is timely filed in duplicate to the Corporate Affairs Bureau at the above address and that includes:

1. An application form, if a form is required for the filing;
2. Payment of the required fee;
3. All supporting documents, in proposed final form;
4. A cover letter explaining the transaction, requesting year-end treatment and indicating that completion by year end is necessary to remedy a financial urgency, address a California market need or to coordinate approval with other state regulators.

The Department will make every effort to complete by year-end the review of perfected applications that conform to these procedures. The volume of applications submitted may require that applications be prioritized, which may preclude year-end review of some perfected applications. In most cases, applications for a Certificate of Authority or an Organizational Permit will not be eligible for year-end completion.

Material deficiencies identified during the review of an application must be cured no later than November 2, 2009, or, in the case of a holding company application, no later than November 25, 2009, to remain eligible for year-end consent. The presence of significant legal or financial issues in an application may preclude eligibility for expedited review or year-end consent.

Questions regarding this Notice should be directed to the Corporate Affairs Bureau at (415) 538-4442 or (415) 538-4130.

Patricia K. Staggs
Deputy General Counsel
